

CONCURSO DE MICRORRELATOS

EL FANTASMA DE LA EOI

THE GHOST(S) IN THE SCHOOL OF LANGUAGES

By Dub Adventures

Have you ever asked yourself why the school elevator is so slow? It's not because it is small and it has to take upstairs a lot of students.

Have you ever seen or heard the classrooms' doors slamming all the time? It's not because of the South wind.

The answers to these questions are simple. **Our EOI is for ghosts as well.**

They love learning new languages and like us, they hate walking up the stairs, that's why they use the elevator.

When they are in the classroom, they close the doors angrily because we, the living people, are too noisy.

As soon as we the students accept to live with them, we'll be happier. Teachers already do. That's why their elevator is faster.
